Subject: 11/28/2001 Intentional Food Poisoning

My family has once again prepared food that has been poisoned with an agent that solidifies waste products in the area between the small and large intestine, making elimination almost impossible.

The agent was prepared in a home made pastry on Wednesday, November 28, 2001. I ate the pastry after I had returned from the studio audience tapings of the Tonight Show and Late Friday at NBC Studios in Burbank. Once again, video surveillance of my home as well as next day newspaper feedback from the Orange County Register's Horoscope section as well as a few of the comics confirm the attack and subsequent discomfort. The PAC of Disney and Disney affiliated people along with their business partner, Mc Donald's Restaurants of suburban Chicago continue to harass me, targeting me because of the influential essays on their continued subversion, obstruction of justice, illegal use of funds, and assaults.

A large land transaction in Orange County with the Irvine Company as well as Major League Baseball's contraction negotiations in Chicago are part of the scenario. It plays like this:

ML Baseball has announced that 2 teams will be eliminated from the League in a year or so due to unprofitable business. The most likely of the teams are the Minnesota Twins, Florida Marlins, Montreal Expos, as well as the Tampa Bay Devil Rays. The MLB contraction game also involves millionaire owners who will shuffle properties. It has been suggested by many in the media that the Marlin's owner will sell the team and purchase the Anaheim Angels from Disney Corporation and the Expos will be purchased by all of MLB, and then eliminated in a year or so. The new Marlin's owner would then move the Florida Marlins to the Washington D.C. area where MLB has been missing since the Washington Senators left town years ago.

The other team that would fold would then be the Minnesota Twins, although after the Tuesday Chicago meeting of baseball's owners, the Minnesota Legislature drafted legislation to keep the Twins in Minnesota, thwarting the MLB owners' efforts at contraction. So, where does it stand now, and why are people so mad to attempt assaults and subversion????

Millions of dollars in concessions from the Disney Corporation as they try to put a public relations spin on Uncle Walt's 100th birthday celebration last weekend (designed to coordinate with the gift of private land to the public by the Irvine Company last week) without resolution on the necessary sale of the losing NHL Mighty Ducks Hockey Team and Anaheim Angels. Since the Microsoft Anti-Trust Trial has been placed on indefinite permafrost, the other large 'Power Kite' was the transfer of money and ownership between MLB owners and Disney as Disney tries to assimilate the 5.2 billion dollar purchase of the FOX / Haim Saban Power Rangers - FOX Family Channel deal.

So, MLB places the team transfers on hold for a year, while Minnesota enacts legislation to keep the Twins in Minnesota. MLB owners have to buy out the Expo's owner and run the Expos. Disney's hopeful sale of the NHL Mighty Ducks and MLB Anaheim Angels is stuck in neutral for a year ... good! All of their stalling on my settlement for over ten years is now beginning to receive a message about fair business practices. The OC Register and LA Times mentioned how so many people are extremely upset because the MLB baseball swaps did not go down as planned.

The 12/4/2001 Randolph Itch 2 A.M. cartoon in the OC Register sums up the intestinal poisoning ... and the Leo Horoscope details one of the remedies I used, large Sunsweet Prunes with pits as opposed to the family's Sunsweet Pitted Prunes kept in the refrigerator. The comment went to my sister, a Leo, saying that her pitfall was not knowing I purchased a new version. The Get Fuzzy cartoon also mentions a muffin today ... the actual pastry was a home made coffee cake.

My three visits to NBC - Burbank and follow-up on employment applications at KNBC-TV and the NBC Network were no more than a continued search for legitimate employment at a company I have visited

since 1977. Others, especially archrival AOL / Time-Warner, with a major studio down the street from NBC, and Disney, with their corporate HQ only blocks from NBC in the opposite direction from Warner Studios, see my visit as a challenge to their 'supreme' right to decide 'other's' careers. Most of these characters have fancy titles at large corporations, however most of them have little legal experience, backed by the large corporate staffs that may be ignorant of their actions. These challengers are no more than smoke and mirrors, in fact they have acted in totally illegal manners without prosecution from the Justice Department or local authorities.

Bringing it all together, and closer to home ... the business relationships my brother-in-law, Al Rex and my sister Bonnie have with Al's corporate employment at McDonald's regional offices in Irvine as well as my family's sentimental attachment and brainwashing with Disney 'magic' have caused my immediate family to continue to subvert my efforts to obtain a satisfying career, stalling the replacement of money that was stolen from me, and invested in real estate and stocks without my consent.

The fact that I am fighting for my rights, and that previous investigations by the US Department of Justice and the Orange County Sheriff's Department have proven my allegations to be correct, is the reason for this message. Please instruct these people to cease all of the food poisonings, and return all of my stolen money to me with interest, or in the event that your polite messages are again refused, freeze their bank accounts as terrorists for many years without prosecution, and rightfully return my money to me as well as interest and penalties for uncovering federal and state corruption, as provided by law.

Thank you,

Robert Remington
